

ApoA-V Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP00524
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	Synthesized peptide derived from ApoA-V . at AA range: 30-110
Mol wt	41213
Species reactivity	Human
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	ApoA-V Antibody
Synonyms	APOA5; RAP3; Apolipoprotein A-V; Apo-AV; ApoA-V; Apolipoprotein A5; Regeneration-associated protein 3

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The apolipoprotein A5 by APOA5 is an apolipoprotein that plays an important role in regulating the plasma triglyceride levels, a major risk factor for coronary artery disease. It is a component of high density lipoprotein and is highly similar to a rat protein that is upregulated in response to liver injury. Mutations in this gene have been associated with hypertriglyceridemia and hyperlipoproteinemia type 5. This gene is located proximal to the apolipoprotein gene cluster on chromosome 11q23. Alternatively spliced transcript variants encoding the same protein have been identified.

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 5000

Not yet tested in other applications.

Images

Western blot analysis of lysates from A431 cells, primary antibody was diluted at 1:1000, 4° over night

Storage

-20°C for one year
