

CDC46 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP01597
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human MCM5. AA range:21-70
Mol wt	82286
Species reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Recommended application	WB, IHC-p, IF, ELISA
Concentration	1 mg/ml
Full name	CDC46 Antibody
Synonyms	MCM5; CDC46; DNA replication licensing factor MCM5; CDC46 homolog; P1-CDC46

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

Minichromosome maintenance complex component 5 encoded by MCM5 is structurally very similar to the CDC46 protein from *S. cerevisiae*, a protein involved in the initiation of DNA replication. The encoded protein is a member of the MCM family of chromatin-binding proteins and can interact with at least two other members of this family. The encoded protein is upregulated in the transition from the G0 to G1/S phase of the cell cycle and may actively participate in cell cycle regulation.

Recommended Dilution

WB: 1: 500 - 1: 2000

IHC: 1: 100 - 1: 300

IF: 1: 200 - 1: 1000

ELISA: 1: 20000

Not yet tested in other applications.
