

# DMBX1 Rabbit Polyclonal Antibody

## Description

| Product type            | Primary Antibody                             |
|-------------------------|--|
| Code                    | BT-AP02270                                   |
| Host                    | Rabbit                                       |
| Isotype                 | IgG  |
| Size                    | 20ul, 50ul, 100ul                            |
| Immunogen               | Synthesized peptide derived from human DMBX1 |
| Mol wt                  | 42020  |
| Species reactivity      | Human, Mouse                                 |
| Clonality               | Polyclonal                                   |
| Recommended application | WB   |
| Concentration           | l mg/ml                                      |
| Full name               | DMBX1  |
| Synonyms                | DMBX1  |

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

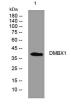

## Background

This gene encodes a member of the bicoid sub-family of homeodomain-containing transcription factors. The encoded protein acts as a transcription factor and may play a role in brain and sensory organ development. Two transcript variants encoding distinct isoforms have been identified for this gene.

#### **Recommended Dilution**

WB: 1: 500 - 1: 2000 Not yet tested in other applications.

#### Images

Western blot analysis of lysates from MCF-7 cells, primary antibody was diluted at 1:1000, 4°C overnight

Storage -20°C for 1 year
