

CYP20A1 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP02383
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human Cytochrome P450 20A1. AA range:191-240
Mol wt	52432
Species reactivity	Human
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	CYP20A1 Antibody
Synonyms	CYP20A1; Cytochrome P450 20A1

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

CYP20A1 (cytochrome P450 family 20 subfamily A member 1) encodes a member of the cytochrome P450 superfamily of enzymes. The cytochrome P450 proteins are monooxygenases that catalyze many reactions involved in drug metabolism and synthesis of cholesterol, steroids and other lipids. This protein lacks one amino acid of the conserved heme binding site. It also lacks the conserved I-helix motif AGX (D,E)T, suggesting that its substrate may carry its own oxygen.

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 40000

Not yet tested in other applications.
