

DGK- ι Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP02586
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human DGKI. AA range:991-1040
Mol wt	116997
Species reactivity	Human, Rat
Clonality	Polyclonal
Recommended application	WB, IHC-p, IF, ELISA
Concentration	1 mg/ml
Full name	DGK- ι Antibody
Synonyms	DGKI; Diacylglycerol kinase iota; DAG kinase iota; Diglyceride kinase iota; DGK-iota

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

DGKI is a member of the type IV diacylglycerol kinase subfamily. Diacylglycerol kinases regulate the intracellular concentration of diacylglycerol through its phosphorylation, producing phosphatidic acid. The specific role of the enzyme encoded by DGKI is undetermined, however, it may play a crucial role in the production of phosphatidic acid in the retina or in recessive forms of retinal degeneration.

Recommended Dilution

WB: 1: 500 - 1: 2000

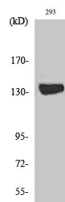

IHC: 1: 100 - 1: 300

IF: 1: 200 - 1: 1000

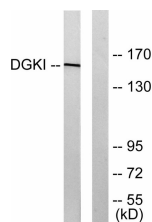

ELISA: 1: 20000

Not yet tested in other applications.
