

eIF5 Polyclonal Antibody

Description

Primary Antibody
BT-AP02901
Rabbit
lgG
20ul, 50ul, 100ul
Synthesized peptide derived from the Internal region of human eIF5.
49223
Human, Mouse, Rat
Polyclonal
IHC-p, ELISA
1 mg/ml
eIF5 Antibody
EIF5; Eukaryotic translation initiation factor 5; eIF-5

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

Eukaryotic translation initiation factor-5 (EIF5) interacts with the 40S initiation complex to promote hydrolysis of bound GTP with concomitant joining of the 60S ribosomal subunit to the 40S initiation complex. The resulting functional 80S ribosomal initiation complex is then active in peptidyl transfer and chain elongations (summary by Si et al. 1996 [PubMed 8663286]).

Recommended Dilution

IHC: 1: 100 - 1: 300 ELISA: 1: 40000 Not yet tested in other applications.
