

EMR4 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP02944
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human EMR4P. AA range:101-150
Mol wt	50903
Species reactivity	Human, Monkey
Clonality	Polyclonal
Recommended application	WB, IF, ELISA
Concentration	1 mg/ml
Full name	EMR4 Antibody
Synonyms	EMR4P; EMR4; GPR127; PGR16; Putative EGF-like module-containing mucin-like hormone receptor-like 4; EGF-like module receptor 4; G-protein coupled receptor 127; G-protein coupled receptor PGR16

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

EMR4P is a member of the EGF-TM7 receptor gene family which is thought to play a role in leukocyte adhesion and migration. In other vertebrates, including nonhuman primates, EMR4P encodes a protein containing N-terminal EGF domains and a C-terminal transmembrane domain. Sequence evidence for the human gene, however, indicates nucleotide deletion in the genomic sequence would result in frameshift and early termination of translation. A protein expressed by EMR4P would be soluble rather than expressed on the cell surface. As the encoded protein has not been detected, EMR4P may represent a transcribed pseudogene.

Recommended Dilution

WB: 1: 500 - 1: 2000

IF: 1: 200 - 1: 1000

ELISA: 1: 20000

Not yet tested in other applications.
