

## INT4 Rabbit Polyclonal Antibody

### Description

|                                |                                             |
|--------------------------------|---------------------------------------------|
| <b>Product type</b>            | Primary Antibody                            |
| <b>Code</b>                    | BT-AP03119                                  |
| <b>Host</b>                    | Rabbit                                      |
| <b>Isotype</b>                 | IgG                                         |
| <b>Size</b>                    | 100ul, 50ul, 20ul                           |
| <b>Immunogen</b>               | Synthesized peptide derived from human INT4 |
| <b>Mol wt</b>                  | N/A                                         |
| <b>Species reactivity</b>      | Human, Mouse                                |
| <b>Clonality</b>               | Polyclonal                                  |
| <b>Recommended application</b> | WB                                          |
| <b>Concentration</b>           | 1 mg/ml                                     |
| <b>Full name</b>               | INT4                                        |
| <b>Synonyms</b>                | INT4; Integrator complex subunit 4; Int4    |

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

### Background

INTS4 is a subunit of the Integrator complex| which associates with the C-terminal domain of RNA polymerase II large subunit (POLR2A; MIM 180660) and mediates 3-prime end processing of small nuclear RNAs U1 (RNU1; MIM 180680) and U2 (RNU2; MIM 180690) (Baillat et al.| 2005

### Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.

### Images

Western blot analysis of lysates from U2OS cells, primary antibody was diluted at 1:1000, 4°C overnight

### Storage

-20°C for 1 year

501 Changsheng S Rd, Nanhu Dist, Jiaxing, Zhejiang, China
