

GLP-1R Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP03587
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human GLP1R. AA range:101-150
Mol wt	53060
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	WB, IF, ELISA
Concentration	1 mg/ml
Full name	GLP-1R Antibody
Synonyms	GLP1R; Glucagon-like peptide 1 receptor; GLP-1 receptor; GLP-1-R; GLP-1R

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

GLP1R encodes a 7-transmembrane protein that functions as a receptor for glucagon-like peptide 1 (GLP-1) hormone, which stimulates glucose-induced insulin secretion. Glucagon-like peptide 1 receptor, which functions at the cell surface, becomes internalized in response to GLP-1 and GLP-1 analogs, and it plays an important role in the signaling cascades leading to insulin secretion. It also displays neuroprotective effects in animal models. Polymorphisms in this gene are associated with diabetes. Glucagon-like peptide 1 receptor is an important drug target for the treatment of type 2 diabetes and stroke. Alternative splicing of this gene results in multiple transcript variants.

Recommended Dilution

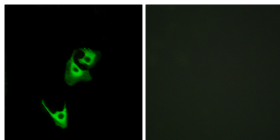

WB: 1: 500 - 1: 2000

IF: 1: 200 - 1: 1000

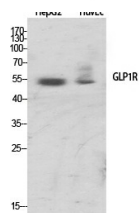

ELISA: 1: 5000

Not yet tested in other applications.
