

mAChR M4 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP05142
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human CHR4. AA range:236-285
Mol wt	53049
Species reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Recommended application	WB, IF, ELISA
Concentration	1 mg/ml
Full name	mAChR M4 Antibody
Synonyms	CHR4; Muscarinic acetylcholine receptor M4

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The muscarinic cholinergic receptors belong to a larger family of G protein-coupled receptors. The functional diversity of these receptors is defined by the binding of acetylcholine and includes cellular responses such as adenylate cyclase inhibition, phosphoinositide degeneration, and potassium channel mediation. Muscarinic receptors influence many effects of acetylcholine in the central and peripheral nervous system. The clinical implications of this receptor are unknown; however, mouse studies link its function to adenylyl cyclase inhibition.

Recommended Dilution

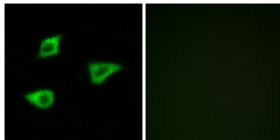

WB: 1: 500 - 1: 2000

IF: 1: 200 - 1: 1000

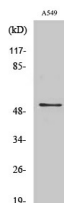

ELISA: 1: 10000

Not yet tested in other applications.
