

## TRPC6 Rabbit Polyclonal Antibody

### Description

Product type	Primary Antibody
Code	BT-AP05270
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	Synthesized peptide derived from human TRPC6
Mol wt	102410
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	WB
Concentration	1 mg/ml
Full name	TRPC6
Synonyms	TRPC6

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

### Background

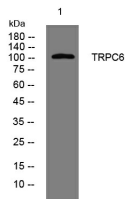

The protein encoded by this gene forms a receptor-activated calcium channel in the cell membrane. The channel is activated by diacylglycerol and is thought to be under the control of a phosphatidylinositol second messenger system. Activation of this channel occurs independently of protein kinase C and is not triggered by low levels of intracellular calcium. Defects in this gene are a cause of focal segmental glomerulosclerosis 2 (FSGS2).

### Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.

### Images

Western blot analysis of lysates from SW480 cells, primary antibody was diluted at 1:1000, 4°C overnight

### Storage

-20°C for 1 year
