

ATR(Phospho-Thr1989) Rabbit Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP06215
Host	Rabbit
Isotype	IgG
Size	100ul, 50ul, 20ul
Immunogen	Synthesized phospho peptide around human ATR (Thr1989)
Mol wt	N/A
Species reactivity	Human, Rat, Mouse
Clonality	Polyclonal
Recommended application	WB
Concentration	1 mg/ml
Full name	ATR
Synonyms	ATR ;Thr1989; Serine/threonine-protein kinase ATR; EC 2.7.11.1; Ataxia telangiectasia and Rad3-related protein; FRAP-related protein 1

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The protein encoded by this gene belongs to the PI3/PI4-kinase family and is most closely related to ATM a protein kinase encoded by the gene mutated in ataxia telangiectasia. This protein and ATM share similarity with Schizosaccharomyces pombe rad3 a cell cycle checkpoint gene required for cell cycle arrest and DNA damage repair in response to DNA damage. This kinase has been shown to phosphorylate checkpoint kinase CHK1 checkpoint proteins RAD17 and RAD9 as well as tumor suppressor protein BRCA1. Mutations of this gene are associated with Seckel syndrome. An alternatively spliced transcript variant of this gene has been reported however its full length nature is not known. Transcript variants utilizing alternative polyA sites exist.

Recommended Dilution

WB: 1: 1000 - 1: 2000

Not yet tested in other applications.
