

Olfactory receptor 4C15 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP06441
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human OR4C15. AA range:261-310
Mol wt	35667
Species reactivity	Human
Clonality	Polyclonal
Recommended application	WB, IF, ELISA
Concentration	l mg/ml
Full name	Olfactory receptor 4C15 Antibody
Synonyms	OR4C15; Olfactory receptor 4C15; Olfactory receptor OR11-127; Olfactory receptor OR11-134

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

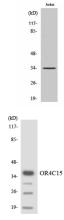

Background

Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms.

Recommended Dilution

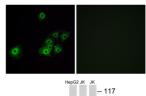

WB: 1: 500 - 1: 2000 IF: 1: 200 - 1: 1000 ELISA: 1: 40000 Not yet tested in other applications.
