

## HA-Tag Polyclonal Antibody

### Description

<b>Product type</b>	Primary Antibody
<b>Code</b>	BT-AP06565
<b>Host</b>	Rabbit
<b>Isotype</b>	IgG
<b>Size</b>	100ul, 50ul, 20ul
<b>Immunogen</b>	Synthetic Peptide of HA-Tag
<b>Mol wt</b>	N/A
<b>Species reactivity</b>	Species independent
<b>Clonality</b>	Polyclonal
<b>Recommended application</b>	WB
<b>Concentration</b>	
<b>Full name</b>	HA-Tag
<b>Synonyms</b>	HA-Tag

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

### Background

Human influenza hemagglutinin (HA) is a surface glycoprotein required for the infectivity of the human virus. The HA tag is derived from the HA-molecule corresponding to amino acids 98-106 has been extensively used as a general epitope tag in expression vectors. Many recombinant proteins have been engineered to express the HA tag which does not appear to interfere with the bioactivity or the biodistribution of the recombinant protein.

### Recommended Dilution

WB: 1: 5000

Not yet tested in other applications.

### Images

No images.

### Storage

-20°C for 1 year

501 Changsheng S Rd, Nanhu Dist, Jiaxing, Zhejiang, China
