

OPG Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP06576
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human TR11B . AA range:10-59
Mol wt	46040
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	WB, IHC-p, IF, ELISA
Concentration	1 mg/ml
Full name	OPG Antibody
Synonyms	TNFRSF11B; OCIF; OPG; Tumor necrosis factor receptor superfamily member 11B; Osteoclastogenesis inhibitory factor; Osteoprotegerin

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

TNF receptor superfamily member 11b encoded by TNFRSF11B is a member of the TNF-receptor superfamily. TNF receptor superfamily member 11b is an osteoblast-secreted decoy receptor that functions as a negative regulator of bone resorption. TNF receptor superfamily member 11b specifically binds to its ligand, osteoprotegerin ligand, both of which are key extracellular regulators of osteoclast development. Studies of the mouse counterpart also suggest that TNF receptor superfamily member 11b and its ligand play a role in lymph-node organogenesis and vascular calcification. Alternatively spliced transcript variants of TNFRSF11B have been reported, but their full length nature has not been determined.

Recommended Dilution

WB: 1: 500 - 1: 2000

IHC: 1: 100 - 1: 300

IF: 1: 200 - 1: 1000

ELISA: 1: 10000

Not yet tested in other applications.
