

Myc-Tag Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP07105
Host	Rabbit
Isotype	IgG
Size	100ul, 50ul, 20ul
Immunogen	Synthetic peptide EQKLISEEDL coupled to KLH.
Mol wt	N/A
Species reactivity	Species independent
Clonality	Polyclonal
Recommended application	WB
Concentration	
Full name	Myc-Tag
Synonyms	Myc-Tag

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

Myc tag is a polypeptide protein tag derived from the c-myc gene product that can be added to a protein using recombinant DNA technology. It can be used for affinity chromatography and then used to separate recombinant overexpressed protein from wild type protein expressed by the host organism. It can also be used in the isolation of protein complexes with multiple subunits.

Recommended Dilution

WB: 1: 5000

Not yet tested in other applications.
