

Pinin Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP07180
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human PNN. AA range:211-260
Mol wt	81614
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	Pinin Antibody
Synonyms	PNN; DRS; MEMA; Pinin; 140 kDa nuclear and cell adhesion-related phosphoprotein; Desmosome-associated protein; Domain-rich serine protein; DRS protein; DRSP; Melanoma metastasis clone A protein; Nucle

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

PNN (Pinin, Desmosome Associated Protein) is a Protein Coding gene. Diseases associated with PNN include melanoma metastasis and premenstrual tension. Among its related pathways are RNA transport and mRNA surveillance pathway. Gene Ontology (GO) annotations related to PNN include poly(A) RNA binding and structural molecule activity.

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 20000

Not yet tested in other applications.

Images

Western blot analysis of the lysates from K562 cells using PNN antibody.

Western blot analysis of lysates from HT-29 cells, using PNN Antibody. The lane on the right is blocked with the synthesized peptide.

Western Blot analysis of various cells using Pinin Polyclonal Antibody

Storage

-20°C for one year

501 Changsheng S Rd, Nanhu Dist, Jiaxing, Zhejiang, China
