

Rsu-1 Polyclonal Antibody

Description

Product type Primary Antibody

Code BT-AP08042

Host Rabbit

Isotype IgG

Size 20ul, 50ul, 100ul

Immunogen The antiserum was produced against synthesized peptide derived from human RSU1. AA range:187-236

Mol wt 31540

Species reactivity Human, Mouse

Clonality Polyclonal

Recommended application WB, ELISA

Concentration 1 mg/ml

Full name Rsu-1 Antibody

Synonyms RSU1; RSP1; Ras suppressor protein 1; RSP-1; Rsu-1

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

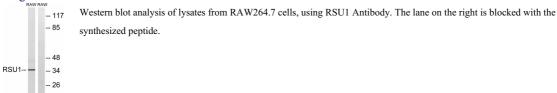

RSU1 (Ras suppressor protein 1) encodes a protein that is involved in the Ras signal transduction pathway, growth inhibition, and nerve-growth factor induced differentiation processes, as determined in mouse and human cell line studies. In mouse, the encoded protein was initially isolated based on its ability to inhibit v-Ras transformation. Multiple alternatively spliced transcript variants for RSU1 have been reported; one of these variants was found only in glioma tumors.

Recommended Dilution

WB: 1: 500 - 1: 2000 ELISA: 1: 20000

Not yet tested in other applications.
