

SNAPC 19 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP08422
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	The antiserum was produced against synthesized peptide derived from human SNAPC5. AA range:10-59
Mol wt	11328
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	IHC-p, ELISA
Concentration	1 mg/ml
Full name	SNAPC 19 Antibody
Synonyms	SNAPC5; SNAP19; snRNA-activating protein complex subunit 5; SNAPc subunit 5; Small nuclear RNA-activating complex polypeptide 5; snRNA-activating protein complex 19 kDa subunit; SNAPc 19 kDa subunit

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

SNAPC5 encodes a subunit of the small nuclear RNA (snRNA)-activating protein complex that plays a role in the transcription of snRNA genes. This complex binds to the promoters of snRNA genes transcribed by either RNA polymerase II or III and recruits other regulatory factors to activate snRNA gene transcription. The small nuclear RNA activating complex polypeptide 5 may play a role in stabilizing this complex. A pseudogene of this gene has been identified on chromosome 6.

Recommended Dilution

IHC: 1: 100 - 1: 300

ELISA: 1: 10000

Not yet tested in other applications.

Images
