

SnoN Polyclonal Antibody

Description

Product type Primary Antibody

Code BT-AP08426

Host Rabbit

Isotype IgG

Size 20ul, 50ul, 100ul

Immunogen The antiserum was produced against synthesized peptide derived from human SKIL. AA range:616-665

Mol wt 77004

Species reactivity Human, Mouse

Clonality Polyclonal

Recommended application WB, IHC-p, ELISA

Concentration 1 mg/ml

Full name SnoN Antibody

Synonyms SKIL; SNO; Ski-like protein; Ski-related oncogene; Ski-related protein

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

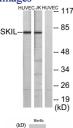

Ski-like protein encoded by SKIL is a component of the SMAD pathway, which regulates cell growth and differentiation through transforming growth factor-beta (TGFB). In the absence of ligand, the encoded protein binds to the promoter region of TGFB-responsive genes and recruits a nuclear repressor complex. TGFB signaling causes SMAD3 to enter the nucleus and degrade this protein, allowing these genes to be activated. Four transcript variants encoding three different isoforms have been found for this gene.

Recommended Dilution

WB: 1: 500 - 1: 2000 IHC: 1: 100 - 1: 300 ELISA: 1: 40000

Not yet tested in other applications.

Images

Western blot analysis of lysates from HUVEC and Jurkat cells, using SKIL Antibody. The lane on the right is blocked with the synthesized peptide.

Western Blot analysis of various cells using SnoN Polyclonal Antibody diluted at 1:1000 cells nucleus.

Storage

-20°C for one year

501 Changsheng S Rd, Nanhu Dist, Jiaxing, Zhejiang, China Tel: 86 21 31007137 | E-mail: save@bt-laboratory.com | www.bt-laboratory.com
