

Dab1(Phospho-Tyr220) Rabbit Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP08878
Host	Rabbit
Isotype	IgG
Size	100ul, 50ul, 20ul
Immunogen	Synthesized phosho peptide around human Dab1 (Tyr220)
Mol wt	N/A
Species reactivity	Human, Rat, Mouse
Clonality	Polyclonal
Recommended application	WB
Concentration	1 mg/ml
Full name	Dab1
Synonyms	Dab1 ;Tyr220; Disabled homolog 1

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The laminar organization of multiple neuronal types in the cerebral cortex is required for normal cognitive function. In mice| the disabled-1 gene plays a central role in brain development| directing the migration of cortical neurons past previously formed neurons to reach their proper layer. This gene is similar to disabled-1| and the protein encoded by this gene is thought to be a signal transducer that interacts with protein kinase pathways to regulate neuronal positioning in the developing brain. Alternatively spliced transcript variants of this gene have been reported| but their full length nature has not been determined.

Recommended Dilution

WB: 1: 1000 - 1: 2000

Not yet tested in other applications.
