

DHX32 Rabbit Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP09199
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	Synthesized peptide derived from human DHX32
Mol wt	81730
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	WB
Concentration	1 mg/ml
Full name	DHX32
Synonyms	DHX32

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

DEAD box proteins| characterized by the conserved motif Asp-Glu-Ala-Asp (DEAD)| are putative RNA helicases. They are implicated in a number of cellular processes involving alteration of RNA secondary structure such as translation initiation| nuclear and mitochondrial splicing| and ribosome and spliceosome assembly. Based on their distribution patterns| some members of this DEAD box protein family are believed to be involved in embryogenesis| spermatogenesis| and cellular growth and division. This gene encodes a member of this family. The function of this member has not been determined. Alternative splicing of this gene generates 2 transcript variants| but the full length nature of one of the variants has not been defined.

Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.

Images

Western blot analysis of lysates from 293T cells, primary antibody was diluted at 1:1000, 4°C overnight

Storage

-20°C for 1 year
