

## F8I2 Rabbit Polyclonal Antibody

### Description

<b>Product type</b>	Primary Antibody
<b>Code</b>	BT-AP09936
<b>Host</b>	Rabbit
<b>Isotype</b>	IgG
<b>Size</b>	20ul, 50ul, 100ul
<b>Immunogen</b>	Synthesized peptide derived from human F8I2
<b>Mol wt</b>	40810
<b>Species reactivity</b>	Human, Mouse
<b>Clonality</b>	Polyclonal
<b>Recommended application</b>	WB
<b>Concentration</b>	1 mg/ml
<b>Full name</b>	F8I2
<b>Synonyms</b>	F8I2

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

### Background

This gene is contained entirely within intron 22 of the factor VIII gene; spans less than 2 kb and is transcribed in the direction opposite of factor VIII. A portion of intron 22 (int22h) containing F8A is repeated twice extragenically closer to the Xq telomere. Although its function is unknown the observation that this gene is conserved in the mouse implies it has some function. Unlike factor VIII this gene is transcribed abundantly in a wide variety of cell types.

### Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.

### Images

Western blot analysis of lysates from SW480 cells, primary antibody was diluted at 1:1000, 4°C overnight

### Storage

-20°C for 1 year
