

F8I2 Rabbit Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP09936
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	Synthesized peptide derived from human F8I2
Mol wt	40810
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	WB
Concentration	1 mg/ml
Full name	F8I2
Synonyms	F8I2

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

This gene is contained entirely within intron 22 of the factor VIII gene; spans less than 2 kb and is transcribed in the direction opposite of factor VIII. A portion of intron 22 (int22h) containing F8A is repeated twice extragenically closer to the Xq telomere. Although its function is unknown the observation that this gene is conserved in the mouse implies it has some function. Unlike factor VIII this gene is transcribed abundantly in a wide variety of cell types.

Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.

Images

Western blot analysis of lysates from SW480 cells, primary antibody was diluted at 1:1000, 4°C overnight

Storage

-20°C for 1 year
