

LexA DNA Binding Region Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP10886
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	Recombinant Protein of LexA DNA Binding Region
Mol wt	N/A
Species reactivity	N/A
Clonality	Polyclonal
Recommended application	WB
Concentration	N/A
Full name	N/A
Synonyms	N/A

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

LexA (EC 3. 1. 8) is a DNA binding protein, is associated with SOS response of cyanobacteria as well as other regulatory networks. Has been shown to directly regulate genes involved in carbon assimilation or controlled by carbon availability. In *Synechocystis* PCC 6803 LexA is not localised to the thylakoid membranes but to the inner region of the cytoplasm.

Recommended Dilution

WB: 1: 10000 - 50000

Not yet tested in other applications.

Images

Western blot analysis of Recombinant LexA protein using LexA DNA Binding Region Polyclonal Antibody. Secondary antibody was diluted at 1:20000

Storage

-20°C for 1 year

501 Changsheng S Rd, Nanhu Dist, Jiaxing, Zhejiang, China
