

MMAC Rabbit Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP11335
Host	Rabbit
Isotype	IgG
Size	100ul, 50ul, 20ul
Immunogen	Synthesized peptide derived from human MMAC
Mol wt	31020
Species reactivity	Human, Mouse
Clonality	Polyclonal
Recommended application	WB
Concentration	1 mg/ml
Full name	MMAC
Synonyms	MMAC

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The exact function of the protein encoded by this gene is not known| however| its C-terminal region shows similarity to TonB| a bacterial protein involved in energy transduction for cobalamin (vitamin B12) uptake. Hence| it is postulated that this protein may have a role in the binding and intracellular trafficking of cobalamin. Mutations in this gene are associated with methylmalonic aciduria and homocystinuria type cblC.

Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.

Images

Western blot analysis of lysates from CACO2 cells, primary antibody was diluted at 1:1000, 4°C overnight

Storage

-20°C for 1 year
