

NAA60 Rabbit Polyclonal Antibody

Description

Product type Primary Antibody

Code BT-AP11484

Host Rabbit

Isotype IgG

Size 100ul, 50ul, 20ul

Immunogen Synthesized peptide derived from human NAA60

Mol wt 26620

Species reactivity Human, Mouse, Rat

Clonality Polyclonal

Recommended application WB

Concentration 1 mg/ml

Full name NAA60

Synonyms NAA60

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

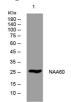

This gene encodes an enzyme that localizes to the Golgi apparatus| where it transfers an acetyl group to the N-terminus of free proteins. This enzyme acts on histones| and its activity is important for chromatin assembly and chromosome integrity. Alternative splicing and the use of alternative promoters results in multiple transcript variants. The upstream promoter is located in a differentially methylated region (DMR) and undergoes imprinting; transcript variants originating from this position are expressed from the maternal allele.

Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.

Images

Western blot analysis of lysates from Hela cells, primary antibody was diluted at 1:1000, 4°C overnight

Storage

-20°C for 1 year
