

Neu(Phospho Tyr1112) Polyclonal Antibody

Description

Product type Primary Antibody

Code BT-AP11821

Host Rabbit

Isotype IgG

Size 20ul, 50ul, 100ul

Immunogen The antiserum was produced against synthesized peptide derived from human HER2 around the

phosphorylation site of Tyr1112. AA range:1081-1130

Mol wt 137910

Species reactivity Human, Mouse, Rat

Clonality Polyclonal

Recommended application WB, ELISA

Concentration 1 mg/ml

Full name Receptor tyrosine-protein kinase erbB-2

Synonyms Receptor tyrosine-protein kinase erbB-2; ERBB2; HER2; MLN19; NEU; NGL; Receptor tyrosine-protein

kinase erbB-2; Metastatic lymph node gene 19 protein; MLN 19; Proto-oncogene Neu; Proto-oncogene c-

ErbB-2; Tyrosine kinase-type cell surface receptor HER2; p185erbB2; CD antigen CD340

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

This gene encodes a member of the epidermal growth factor (EGF) receptor family of receptor tyrosine kinases. This protein has no ligand binding domain of its own and therefore cannot bind growth factors. However, it does bind tightly to other ligand-bound EGF receptor family members to form a heterodimer, stabilizing ligand binding and enhancing kinase-mediated activation of downstream signalling pathways, such as those involving mitogen-activated protein kinase and phosphatidylinositol-3 kinase. Allelic variations at amino acid positions 654 and 655 of isoform a (positions 624 and 625 of isoform b) have been reported, with the most common allele, Ile654/Ile655, shown here.

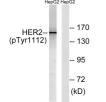

Amplification and/or overexpression of this gene has been reported in numerous cancers, including breast and ovarian tumors. Alternative splicing results in several additional transcript variants, some encoding d

Recommended Dilution

WB: 1: 500 - 1: 2000 ELISA: 1: 10000

Not yet tested in other applications.

Images

Western blot analysis of K562 using p-Neu (Y1112) antibody. Antibody was diluted at 1:500

Western blot analysis of lysates from HepG2 cells treated with PMA 125ng/ml 20', using HER2 (Phospho-Tyr1112) Antibody. The lane on the right is blocked with the phospho peptide.

Storage

-20°C for 1 year
