

TIM8B Rabbit Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP13036
Host	Rabbit
Isotype	IgG
Size	100ul, 50ul, 20ul
Immunogen	Synthesized peptide derived from human TIM8B
Mol wt	9130
Species reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Recommended application	IHC-p, IF
Concentration	1 mg/ml
Full name	TIM8B
Synonyms	TIM8B

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

This gene encodes a member of a well-conserved family of proteins with similarity to yeast Tim mitochondrial import proteins. This gene is encoded by a nuclear gene and is transported into the intermembrane space of the mitochondrion. When formed into complexes| these proteins guide membrane-spanning proteins across the mitochondrial intermembrane space before they are added into the mitochondrial inner membrane. This gene is adjacent to succinate dehydrogenase| subunit D (SDHD)| in which mutations have been found in affected members of families with hereditary paraganglioma.

Recommended Dilution

IHC-p: 1: 50 - 1: 200

Not yet tested in other applications.
