

## UE2NL Rabbit Polyclonal Antibody

### Description

|                         |  |
|-------------------------|--|
| Product type            | Primary Antibody                             |
| Code                    | BT-AP13357                                   |
| Host                    | Rabbit                                       |
| Isotype                 | IgG  |
| Size                    | 20ul, 50ul, 100ul                            |
| Immunogen               | Synthesized peptide derived from human UE2NL |
| Mol wt                  | 16830  |
| Species reactivity      | Human, Rat, Mouse                            |
| Clonality               | Polyclonal                                   |
| Recommended application | WB   |
| Concentration           | 1 mg/ml                                      |
| Full name               | UE2NL  |
| Synonyms                | UE2NL  |

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

### Background

This gene is intronless and encodes a member of the ubiquitin-conjugating enzyme family. The protein product is 91% identical to ubiquitin-conjugating enzyme E2N| a multi-exon gene product. This locus represents a polymorphic pseudogene| where some individuals contain an allele that can encode a full-length protein| while others have a non-functional allele containing a premature stop codon (reference SNP rs237520) that truncates the coding sequence.

### Recommended Dilution

WB: 1: 500 - 1: 2000

Not yet tested in other applications.
