

SCN3A Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP14076
Host	Rabbit
Isotype	IgG
Size	100ul, 50ul, 20ul
Immunogen	Synthesized peptide derived from part region of human protein
Mol wt	N/A
Species reactivity	Human, Rat, Mouse
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	Sodium channel protein type 3 subunit alpha
Synonyms	Sodium channel protein type 3 subunit alpha ;Sodium channel protein brain III subunit alpha;Sodium channel protein type III subunit alpha;Voltage-gated sodium channel subtype III;Voltage-gated s

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

Voltage-gated sodium channels are transmembrane glycoprotein complexes composed of a large alpha subunit with 24 transmembrane domains and one or more regulatory beta subunits. They are responsible for the generation and propagation of action potentials in neurons and muscle. This gene encodes one member of the sodium channel alpha subunit gene family, and is found in a cluster of five alpha subunit genes on chromosome 2. Multiple transcript variants encoding different isoforms have been found for this gene.

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 5000 - 1: 20000

Not yet tested in other applications.
