

AES Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP14139
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	Synthesized peptide derived from part region of human protein
Mol wt	N/A
Species reactivity	Human, Rat, Mouse
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	Amino-terminal enhancer of split
Synonyms	Amino-terminal enhancer of split ;Amino enhancer of split;Gp130-associated protein GAM;Protein ESP1;Protein GRG

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The protein encoded by this gene is similar in sequence to the amino terminus of Drosophila enhancer of split groucho| a protein involved in neurogenesis during embryonic development. The encoded protein| which belongs to the groucho/TLE family of proteins| can function as a homooligomer or as a heterooligomer with other family members to dominantly repress the expression of other family member genes. Three transcript variants encoding different isoforms have been found for this gene.

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 5000 - 1: 20000

Not yet tested in other applications.

Images

Western blot analysis of lysates from A431 cells, primary antibody was diluted at 1:1000, 4°C overnight

Storage

-20°C for 1 year
