

TLR6 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP15007
Host	Rabbit
Isotype	IgG
Size	20ul, 50ul, 100ul
Immunogen	Recombinant Protein of TLR6
Mol wt	N/A
Species reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Recommended application	IHC-p, IF
Concentration	N/A
Full name	Toll-like receptor 6
Synonyms	Toll-like receptor 6; Toll-like receptor 6; CD286

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

The protein encoded by this gene is a member of the Toll-like receptor (TLR) family which plays a fundamental role in pathogen recognition and activation of innate immunity. TLRs are highly conserved from *Drosophila* to humans and share structural and functional similarities. They recognize pathogen-associated molecular patterns (PAMPs) that are expressed on infectious agents, and mediate the production of cytokines necessary for the development of effective immunity. The various TLRs exhibit different patterns of expression. This receptor functionally interacts with toll-like receptor 2 to mediate cellular response to bacterial lipoproteins. A Ser249Pro polymorphism in the extracellular domain of the encoded protein may be associated with an increased of asthma in some populations.

Recommended Dilution

IHC: 1: 200 - 1: 500

Not yet tested in other applications.

Images

Immunohistochemical analysis of paraffin-embedded Mouse Spleen Tissue using TLR6 Polyclonal Antibody.

Storage

-20°C for 1 year
