

UBP10 Polyclonal Antibody

Description

Product type	Primary Antibody
Code	BT-AP15315
Host	Rabbit
Isotype	IgG
Size	100ul, 50ul, 20ul
Immunogen	Synthesized peptide derived from part region of human protein
Mol wt	N/A
Species reactivity	Human, Rat, Mouse
Clonality	Polyclonal
Recommended application	WB, ELISA
Concentration	1 mg/ml
Full name	Ubiquitin carboxyl-terminal hydrolase 10
Synonyms	Ubiquitin carboxyl-terminal hydrolase 10 ;EC 3.4.19.12;Deubiquitinating enzyme 10;Ubiquitin thioesterase 10;Ubiquitin-specific-processing protease 10

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

Background

Ubiquitin is a highly conserved protein that is covalently linked to other proteins to regulate their function and degradation. This gene encodes a member of the ubiquitin-specific protease family of cysteine proteases. The enzyme specifically cleaves ubiquitin from ubiquitin-conjugated protein substrates. The protein is found in the nucleus and cytoplasm. It functions as a co-factor of the DNA-bound androgen receptor complex, and is inhibited by a protein in the Ras-GTPase pathway. The human genome contains several pseudogenes similar to this gene. Several transcript variants, some protein-coding and others not protein-coding, have been found for this gene.

Recommended Dilution

WB: 1: 500 - 1: 2000

ELISA: 1: 5000 - 1: 20000

Not yet tested in other applications.
